15 July 2015

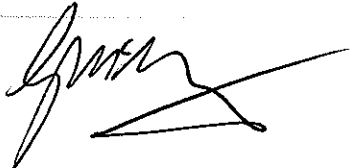

NEW BONDED WAREHOUSES

I refer to the above project which has just been successfully completed by Bell Building Projects Ltd.

The project was undertaken in a professional manner, delivered on time, within budget and to our complete satisfaction. The new buildings provide Campbell Meyer with additional storage space to meet business growth and we look forward to working with Bell Building Projects on the up and coming Phase 2 project.

I would have no hesitation in recommending Bell Building Projects to clients seeking to undertake industrial and commercial related Building Projects.

Yours faithfully

G McSherry
Managing Director
