

D MCGHEE & SONS LTD

Phase 3 Bakery Extension

Keppochhill Drive, Glasgow

PROJECT DETAIL:

Design and construction of a 2,000 sqm food production extension with offices at first floor. Extension will provide additional space for new production lines to support expanding business activities.

Building footprint requires extensive vibro compaction and drainage alterations. Project involves downtakings within the existing building to accommodate linkage as well as extensive new M&E installation to meet production requirements. New M&E installation to be integrated back into the existing factories services. Resin floor screed as well as hygienic wall and roof cladding to be installed throughout.

Bell Building Projects worked closely with the client's design team to provide extensive value and design engineering solutions whilst ensuring the highest level of health and safety in this live working environment.

VALUE: £3.5m

DURATION: 36 Weeks

PM/Architect: Oliver & Robb Architects

Engineer: David Reid Associates / DCF Design

M&E: Horizon / DMP Engineers

CDMC: Oliver & Robb Architects
