**PERTH Rebuilding of Retail Terrace**

Dear Stuart,

I write to offer a big thank you for leading your excellent team in the successful delivery of the fire damaged replacement Pets at Home and B&M units at Perth.

Bell BP have really embraced a “Can do attitude” from start to finish, embracing the novated design team, refining and detailing in the drawing office, to the commercial and contract management departments supporting Scott and his team on site. It really has been admirable.

We probably all thought we had a relatively straight forward project of 30k sqft of retail sheds. However when you embrace supporting your client of a pending change of floorplan and elevations (awaiting a belated planning amendment), a totally disruptive Covid year seeing many other projects badly disrupted , the discovery of unexpected services requiring statutory authority diversions and finally a good deluge of Scottish weather including snow and sub-zero temperatures at the final key stages, to deliver the project to our satisfaction has been just tremendous. Thank You All .

Yours sincerely

*David Wade*
