

STARBUCKS DRIVE THRU & GREGGS

Fairfield Service Station, Broxburn

PROJECT DETAIL:

Construction of 2 separate standalone single storey units, Starbucks Drive-Thru and Greggs.

This is the first Starbucks Drive-Thru unit based upon their new design package incorporating an Accoya wood façade and brick slip system.

Greggs unit is a flat roof with Kingspan cladding panels and a beam and block floor with self levelling gyvlon floor screed.

New associated parking and landscaping was provided throughout and gabion baskets were installed at the site boundary as a preventative measure to the neighbouring Mercedes garage.
